

Actual position

- 2025- **Postdoc**, Université de Toulouse, France
Temporary Teaching and Research Assistant (ATER) position in France

Education

- 2022-2025 **PhD in Complex Geometry, under the supervision of Benoît CLAUDON and Henri GUENANCIA**, *Numerical characterization of quotient of complex projective spaces*, Université de Rennes and Université de Toulouse, France
Defended on 8th July 2025. Jury : Serge CANTAT, Benoît CLAUDON, Enrica FLORIS, Daniel GREB, Henri GUENANCIA, Erwan ROUSSEAU, Frédéric TOUZET
- 2021-2022 **Master's degree, Master 2 - AAG**, Université Paris-Saclay, Orsay, France
Obtained with highest honors
- 2020-2021 **Master's degree, Master 2 - Formation à l'enseignement supérieur**, ENS Paris-Saclay, Gif-sur-Yvette, France
Obtained with honors
- 2021 **Admitted to Agrégation**
French national competitive examination for mathematics teaching, rank 14
- 2015-2019 **Bsc in Mathematics**, ENS Paris-Saclay, Cachan, France
Obtained with highest honors
- 2018 **Admitted to ENS Paris-Saclay**

Preprints

- Jan. 2026 **Stability properties of adapted tangent sheaves on Kähler–Einstein log Fano pairs**, *submitted*
eprint : <https://arxiv.org/abs/2601.19608>
- Jan. 2025 **Miyaoka–Yau equality and uniformization of log Fano pairs**, *submitted*
eprint : <https://arxiv.org/abs/2501.05887>

Talks

- Jan. 2026 **Oberseminar Complex and Algebraic Geometry**, Ruhr-Universität Bochum, Bochum, Germany
- Nov. 2025 **Séminaire de Géométrie**, UBO, Brest, France
- Dec. 2025 **Séminaire de Géométrie**, IECL, Nancy, France
- June 2025 **Oberseminar Complex and Algebraic Geometry**, Ruhr-Universität Bochum, Bochum, Germany
- April 2025 **Séminaire de Géométrie complexe**, IMT, Toulouse, France
- April 2025 **Birational Geometry Seminar - Webinar**, UCLA, US
- March 2025 **Séminaire Systèmes dynamiques et géométrie**, LAREMA, Angers, France
- October 2024 **Graduate Student Seminar Series, Uniformization of klt Fano pairs with Miyaoka–Yau equality**, Simons Laufer Mathematical Sciences Institute, Berkeley, US

June 2024 **PhD Seminar**, *Uniformization and orbifolds*, Université Bretagne occidentale, France

May 2024 **PhD Seminar**, *Uniformization and orbifolds*, Université de Rennes
France

Feb. 2024 **French-Brazil School on Foliations**, *Uniformization of klt Fano pairs with Miyaoka-Yau equality*, CIRM, Luminy, France

June 2023 **Workshop on classification of complex surfaces**, *Examples of surfaces (fiber surfaces and quotient surfaces)*, Rennes, France

Dec. 2022 **Algebraic Geometry and Complex Geometry**, CIRM, Luminy, France
Short talk

Research internships

April-August 2022 **L^2 -methods for Kodaira embedding theorem**, CMLS, Palaiseau, France
under the supervision of Sébastien BOUCKSOM

April-August 2020 **Group action on tensor algebras**, Institut Fourier, Grenoble, France
under the supervision of Claire AMIOT

April-June 2019 **Sampling methods on submanifolds of $\mathbb{R}^n$** , CMLA, Cachan, France
under the supervision of Alain DURMUS and Valentin DE BORTOLI

Teaching and Popularization

Teaching

Fall 2025 - **Teaching assistant**, Rennes

Spring 2026 Supervision of 196 hours of exercise sessions for first year students

Fall 2022 - **Teaching assistant**, Rennes

Fall 2023 Supervision of 128 hours of exercise sessions and Python programming sessions

2019-2021 **Higher School Preparatory Classes examiner**, Paris
Mathematics examiner for second year students in higher school preparatory classes

Popularization

December 2023 **Club Rennes et Maths**, Rennes
A short introduction to rational points of spheres for high school students

2019-2022 **Jury member of the French Tournament of Young Mathematicians**

Languages

French **Mother tongue**

English **Fluent**

German **Basic**

Knowledge of Latex and Python
